CONTENTS

FARMERS' BULLETIN NO. 1451.—MAKING AND USING COTTAGE CHEESE IN THE HOME:

	Page
A desirable food easily prepared	1
Quality and its requisites	1
Equipment for making cottage cheese	2
Making small quantities for home use	3
The use of starters	3
Pasteurization	4
Making cheese on a large scale	4
Making the cheese with rennet	6
Adding cream and peppers	7
Yield of cheese	7
Marketing the product	7
Summary of ordinary process	7
Summary of rennet process	8
Uses of cottage cheese	8
Delicious cottage-cheese dishes	8
Salads and salad dressings	9
Sandwiches and breads	10

FARMERS' BULLETIN NO. 1452.—PAINTING ON THE FARM:

Importance of painting	1
When to paint	2
Paint materials	2
Pigment	2
Vehicle	6
Ready-mixed paints	8
Outside house paint	9
Flat wall paint	9
Floor paint	9
Enamel	9
Special primers and undercoaters	10
Concrete and cement paint	10
Rust-preventing paint	10
Bituminous paint	10
Marine paint	10
Heat-reflecting paint	11
Paint for steam radiators	11
Automobile paint	11
"Fireproofing" paint	11
Luminous paint	12
Calcimine and cold-water paint	12
Varnishes	12
Paint mixed on the job	12
Equipment	12
Mixing	13
Tinting	14
Outside house paint	14
Interior paint	15
Barn paint	16
Paint for brick and concrete	17
Outside paint for metals	18
Farm implement paint	18
Shingle stains	19
Whitewash	20
How to prepare surfaces for painting	21
Wood	21
Brick and concrete	22
Plaster	22
Metal	23

	Page
FARMERS' BULLETIN No. 1452.—PAINTING ON THE FARM—Continued.	
How to estimate the quantity of paint needed	23
Surface area of building	23
Spreading rates	24
Estimating requirements	24
How to paint	26
Brush painting	27
Spray painting	31
Dipping	32
Precautions	32
FARMERS' BULLETIN No. 1453.—GROWING AND PLANTING CONIFEROUS TREES ON THE FARM:	
Why grow conifers	2
Choice of trees	3
Rates of growth	5
Probable yields	6
Trees for windbreaks	6
Planting exotics	6
Planting two or more kinds of trees in mixture	8
Underplanting old stands of trees	9
Procuring the seed	9
Collecting the seed	9
Extracting the seed	14
Storing the seed	18
Growing the seedlings in the nursery	19
Starting the plantation	28
Care of the plantation	32
Growing Christmas trees	34
Appendix	37
FARMERS' BULLETIN No. 1454.—HOME UTILIZATION OF MUSCADINE GRAPES:	
Importance of a better utilization of Muscadine grapes	1
Requirements for successful work	2
Muscadine grape products	3
Sirup	3
Unfermented grape juice	6
Jelly	8
Canned grapes	14
Spiced grapes	15
Catsup	16
Conserves	16
Preserves	16
Jam	17
Marmalade	17
Fruit butter	18
Mincemeat substitute	18
Flavoring sirup	18
Pastes	19
Summary	25
FARMERS' BULLETIN No. 1455.—FITTING, SHOWING, AND JUDGING HOGS:	
Entering hogs for exhibition	1
Definitions of ages and classes	2
Desirable weights for show animals	3
Selecting the individuals	4
Feeds and feeding	7
Segregation of animals	10
Shedding the coat	10
Trimming feet and tusks	11
Exercise	12
Prevention of disease	12
Shipping the hogs	12
Management at fair	14
In the show ring	15
After the fair	15
Score card for swine	16
Description of points	19
Conclusion	22

	Page
FARMERS' BULLETIN No. 1456.—HOMES FOR BIRDS:	
Origin of the nest-box idea	1
Use of nest boxes in the United States	2
Increase of birds due to provision of nesting facilities	2
Results of increasing the number of birds	3
Housing bird enemies of insects	4
Principles of nest-box construction	5
Principles of location of bird houses	8
Suggestions for homes for various birds	9
Protection against enemies	16
Sanitation of bird houses	19
Provision of nesting material	19
Nesting thickets	20
Roosting shelters	20
FARMERS' BULLETIN No. 1457.—PACKING APPLES IN BOXES:	
Development of western boxed packing	1
Community packing houses	1
Construction of packing houses	1
Equipment	2
Supplies	9
Sketching the operations	11
Method of wrapping	12
Apple packs	15
Diagram of packs	17
Determining the count	19
Bulge	20
Evenness of top	22
Experience and instruction important	22
FARMERS' BULLETIN No. 1458.—STRAWBERRY DISEASES:	
Leaf diseases	2
Leaf spot	2
Scorch	3
Control of leaf spot and scorch	3
Leaf blight	5
Mildew	5
Diseases caused by nematodes	6
Nematode gall	6
Root knot	6
Fruit rots	8
Gray mold	8
Tan rot	9
Leather rot	9
Hard rot	9
Leak	10
Control of fruit rots	10
FARMERS' BULLETIN No. 1459.—SELLING BLACK WALNUT TIMBER:	
Black walnut as a farm crop	1
Practical suggestions on selling	1
Market specifications for logs	2
Estimating standing timber	4
Scaling logs	8
Finding a market	9
Methods of selling	11
Prices	13
How to cut black walnut trees to best advantage	14
Logs	14
Stumps and crotches	16
Storing cut timber	17
Log weights and freight rates	18
Costs of felling and hauling	19
Sources of additional information	20
FARMERS' BULLETIN No. 1460.—SIMPLE PLUMBING REPAIRS IN THE HOME:	
Faucets	1
Stop and waste cocks	5
Ball cocks	6
Flush valves for low tanks	6

FARMERS BULLETIN NO. 1460.—SIMPLE PLUMBING REPAIRS IN THE HOME—Continued. Page
Clogged pipes 7
Thawing pipes 9
Removing scale from water backs and coils 10
Leaks in pipes and tanks 11
Cracked laundry tubs 13
Hose menders or splicers 13
FARMERS' BULLETIN NO. 1461.—THE COMMON CABBAGE WORM AND ITS CONTROL:
Introductory 1
Description 1
Food habits 2
Life history 3
Nature of injury 3
Natural enemies 5
Control on cabbage 6
Arsenicals or arsenic poisons 6
Sprays 6
Dusts 7
Preparation of spray mixtures 8
Preparation of dusts 8
Spray equipment 9
Dusters 10
Arsenicals safe to use on cabbage if properly applied 12
Control on other crops 12
Clean farming 12
Summary 13
FARMERS' BULLETIN NO. 1462.—THE POTATO LEAF HOPPER AND HOW TO CONTROL IT:
Description 1
Distribution 3
Economic importance 3
Seasonal history 3
Hopperburn 3
How hopperburn affects different varieties 4
Food plants 8
Natural enemies 8
Control of the leaf hopper and prevention of hopperburn 8
Action of Bordeaux mixture 9
How to prepare Bordeaux mixture 10
How and when to apply Bordeaux mixture 11
Summary of control measures 12
FARMERS' BULLETIN NO. 1463.—SUCCESSFUL FARMING ON 160-ACRE FARMS IN CENTRAL INDIANA:
Incomes made from 160-acre farms 1
Variations in incomes from 160-acre farms 3
Farming systems 3
The hog system 4
The hog and beef cattle feeding system 20
The hog and dairy system 21
Farm accounts 23
Successful farming and good living 25
Standards of organization and management 25
FARMERS' BULLETIN NO. 1464.—BARLEY: CULTURE, USES, AND VARIETIES:
Increasing the acreage of barley 1
Barley regions 2
Economics of barley growing 3
Farms and soils where barley should be grown 7
Place of barley in the rotation 7
Manures and fertilizers 9
Good seed 10
Preparation of the soil 11
Date of seeding 13
Rate of seeding 15
Depth of seeding 16
Method of seeding 16

FARMERS' BULLETIN NO. 1464.—BARLEY: CULTURE, USES, AND VARIETIES—Continued

	Page
Time of harvesting	17
Methods of harvesting	17
Shocking, stacking, and threshing	18
Cost of producing barley	19
Uses of barley in manufactories	21
Stock feed	22
Feeding barley	23
Pasturing barley	24
Varietal regions	25
Varietal areas	27
What variety to grow	28
Where to procure seed	29
Diseases	30
Summary	31

FARMERS' BULLETIN NO. 1465.—COTTON GINNING:

Separation of seed for planting	1
Ginner's certificate for the farmer	2
Usual ginning process	4
One and two story gins	5
Principal parts of gin machinery	5
Elevators	5
Preparatory cleaning processes	7
Cleaner feeders	8
Gin saws and ribs	9
Comparison of 10 and 12 inch saws	9
Speed of gin saws	13
Air-blast and brush gins	14
Presses	16
Tare and type of bales	18
Gin compresses	19
Plated bales	21
Gin fires	21
Careless preparation of the American bale	24
Publications relating to cotton	28

FARMERS' BULLETIN NO. 1466.—GAME LAWS FOR THE SEASON 1925–26:

A SUMMARY OF FEDERAL, STATE, AND PROVINCIAL STATUTES:	
Officials from whom copies of laws may be obtained	ii
Review of legislation of 1925	1
Federal laws relating to game and birds	8
Summary of laws relating to seasons, licenses, limits, possession, interstate transportation, and sale	10
State laws	11
Canada	37
Newfoundland	42
Mexico	42
Order permitting the killing of bobolinks, reedbirds, or rice birds	43
Imported game and game raised in captivity	43

FARMERS' BULLETIN NO. 1467.—COMMERCIAL VARIETIES OF ALFALFA:

Varieties and strains of alfalfa	1
The common alfalfa group	2
Domestic strains	3
Provence strain	5
Argentine alfalfa	5
South African alfalfa	6
Turkestan group	6
Variegated group	7
Grimm	8
Baltic	9
Cossack	10
Canadian variegated	10
Sand lucern	11
Nonhardy group	12
Peruvian	12
Arabian	14

FARMERS' BULLETIN No. 1467.—COMMERCIAL VARIETIES OF ALFALFA—Continued. Page
Yellow-flowered group 15
Varieties for various sections 17
Purchasing seed 19
Seed production 20
Possibilities in breeding 21
Publications relating to alfalfa 21
FARMERS' BULLETIN No. 1468.—MUSKMELONS:
Importance of the muskmelon industry 1
Climate 2
Soil 2
Rotation 3
Varieties 3
Seed supply 12
Preparation of soil 14
Manure and fertilizers 15
Methods of planting 17
Thinning in the field 19
Cultivation 20
Nipping and pruning vines 20
Pollination 21
Irrigation 21
Insect enemies 22
Diseases and their control 24
Gathering and handling 27
Grading and packing 31
Selling muskmelons at roadside and local markets 36
Factors governing the cost of growing and handling 37
Yields and returns per acre 38
Summary 38
FARMERS' BULLETIN No. 1469.—LAWS RELATING TO FUR ANIMALS FOR THE SEASON 1925–26:
Fur conservation essential 1
Causes of fur depletion 1
Open seasons 2
Report of trappers 2
Propagating fur animals in captivity 3
Interstate shipment of pelts 4
Review of legislation of 1925 5
The Alaska game law 5
Other laws 5
Summary of laws 6
Federal laws 6
Laws of States 7
Laws of Canada 23
Laws of Newfoundland 27
Laws of Mexico 27
Officials from whom copies of laws may be obtained 28
FARMERS' BULLETIN No. 1470.—CARE AND MANAGEMENT OF DAIRY COWS:
Building up the herd 1
The dry cow 2
The fresh cow 3
Milking 6
Keeping records 9
Stable and yard 14
Cleanliness 19
Feeding 22
Fitting for show 24
Diseases and common ailments 27
FARMERS' BULLETIN No. 1471.—CANNING FRUITS AND VEGETABLES AT HOME:
Causes of food spoilage 2
Times and temperatures required for destroying bacteria 3
Types of home canners 4
Water-bath canners 4
Pressure canners 5

FARMERS' BULLETIN No. 1471.—CANNING FRUITS AND VEGETABLES AT HOME—Continued. Page
Containers 6
Glass jars 6
Rubber rings 7
Tin cans 7
Methods of canning 8
Hot-pack method 9
Steps in canning 9
Selecting and preparing the material 9
Packing the material 10
Adjusting covers 10
Exhausting 12
Processing 12
Checking up results 14
Directions for preparing and processing fruits, tomatoes, etc 15
Time-table for canning fruits, tomatoes, etc 18
Directions for preparing and processing nonacid vegetables 19
Time-table for canning nonacid vegetables 21
Examination of canned food before use 22
FARMERS' BULLETIN No. 1472.—PREVENTING DAMAGE BY TERMITES OR WHITE ANTS:
Termites and their habits 1
Distribution and forms 1
Location of colonies or nests 2
Termites which are subterranean in habit 2
Termites which are nonsubterranean in habit 3
The colonizing swarm 3
The reproductive forms 5
Preventing and remedying damage to woodwork of buildings 6
Destruction of breeding places about the building site 6
Proper construction of buildings 6
Modifications of city building codes 15
Locating and temporarily arresting the damage 15
Indications of infestation 16
Killing the winged adults will not stop the damage 16
Disconnecting wood from the ground 17
Replacing with concrete 17
Replacing with metal 17
Fumigation and spraying 17
Heat 18
Insecticides 18
Preventing and remedying injury to living vegetation 18
Fruit, nut, shade, and forest trees 18
Young plantations or nursery stock 19
Vineyards 20
Field and truck crops 20
Flowers and greenhouse stock 20
Summary 21
FARMERS' BULLETIN No. 1473.—WASHING AND STERLIZING FARM MILK UTENSILS:
The water supply 1
How to wash utensils 1
Equipment for washing utensils 2
Sterlization by steam 3
Construction of sterlizing cabinets 3
Operation of sterlizing cabinets 4
The galvanized-iron box sterilizer 5
Sterlization of large equipment 5
Sterlization with a steam jet 6
FARMERS' BULLETIN No. 1474.—STAIN REMOVAL FROM FABRICS: HOME METHODS:
Index to stains ii
General principles of stain removal 1
Nature of the stain 1
Kind of fabric 1

FARMERS' BULLETIN NO. 1474.—STAIN REMOVAL FROM FABRICS: HOME METHODS—Continued.

	Page
Substances used for stain removal	3
Absorbents	3
Stain solvents	3
Bleaches	4
General methods of treating stains	6
Sponging with water or other solvent	6
Application of chemicals	6
Methods of treating individual stains	8
Acids	8
Alkalis	9
Blood	9
Bluing	10
Butter and butter substitutes	11
Candle wax (colored)	11
Candy	11
Chewing gum	11
Chocolate and cocoa	12
Coffee	12
Dyes and running colors	13
Egg	13
Fly paper (sticky)	13
Fruits and berries (cooked)	13
Fruits and berries (fresh)	14
Glue	15
Grass, dandelion, and other fresh green foliage	15
Greese and oils	15
Gums	16
Ice cream	16
Ink	17
Iodine	19
Iron rust	19
Leather	20
Lime (slaked)	20
Linseed oil	20
Meat juice or gravy	21
Medicines	21
Metalic stains	21
Mildew	21
Milk and cream	22
Mud	22
Mustard	22
Paints	22
Paraffin or paraffin wax	24
Pencil marks	24
Perspiration	24
Pokeberry	25
Resins and resinous substances	25
Salad dressings	25
Scorch	25
Shoe dressings	26
Soap	26
Soot	27
Stove polish	27
Sugar sirups	27
Tar, road oil, creosote oil, asphalt, asphalt paint, axle grease	27
Tea	28
Tin foil	28
Tobacco	28
Tomato vine	29
Tumeric	29
Urine	29
Vaseline	29
Walnut (black)	30
Waterspots	30
White sauces, cream soups, gruel	30

FARMERS' BULLETIN No. 1475.—SOIL PRODUCTIVITY AS AFFECTED BY CROP ROTATION:

	Page
Four rotation facts	1
Explanation of terms	1
Practical interpretation of rotation facts	4
Aim of this bulletin	5
Fixed versus flexible cropping systems	6
Factors determining rotations	6
Flexibility in cropping, a principle in farming economy	8
Rotation versus fertilizers in land utilization	8
Rotation not an item of expense in cost accounting	11
Interaction of rotation, cultivation, and soil fertilization	11
Interrelation of rotation, cultivation, and fertilization in soil improvement and permanent productivity	12
Crop rotation the starting point in business farming	22
